

THROW OUT THE LINE

Give Them Help and Many Norwich People Will Be Happier.

"Throw Out the Life Line"—The kidneys need help. They're overworked — can't get the poison filtered out of the blood. They're getting worse every minute. Will you help them?

Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair. Will cure any form of kidney trouble.

Mrs. H. A. Simonds, 117 Franklin Street, Norwich, Conn., says: "For the purposes for which their use is intended I think there is no medicine equal to Doan's Kidney Pills. The undoubted benefit they have given to my friends warrants me in recommending them highly. I will cheerfully give the facts that lead me to testify in favor of Doan's Kidney Pills, which were procured from N. D. Sevin & Son's drug store, to anyone desirous of knowing them for his or her own good."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

OILING ANSONIA STREETS.

Stuff Being Used Doesn't Soak Into Ground and is Being Carelessly Spread.

The first use of oil on the public streets of Ansonia was made Monday morning, when the Wakelee avenue macadam received a coating. Owing to the low temperature prevailing the oil did not readily percolate into the road, but remained upon the surface. As the crosswalks were smeared with the substance also, the administration of the oil was not attended by particularly pleasant consequences. Once upon the bottom of one's shoes, it could be tracked for a considerable distance, and when this was as far as the interior of a house the oil was not particularly ornamental on rugs and carpets. Better results are hoped for. The oiling is being done only on the east side of the thoroughfare.—Ansonia Sentinel.

White Slavery.

That which is happening in the city of Chicago in attempts to break up what is called "white slavery," ought to happen in every city where any proof can be obtained that this nefarious traffic is going on. It has come to our notice in several ways that both in Chicago and in New York the worst panders to vice and the most cruel slave-dealers are degenerate Jews, many of them refugees from Russia, who are so intoxicated by possibilities of making money after suffering the pangs of the most abject poverty that they are willing to sell even their own women for the sake of gain. We should not make this statement so definitely had not Rabbi Hirsch been quoted as saying that "Seventy-five per cent. of this white slave-trade in Chicago is in Jewish hands. The owners of most of the immoral resorts on the West Side are Jews. Even in Gentile neighborhoods Jews stand out prominently in this nefarious business."—Christian Register.

Truth was lying at the bottom of a well. "I like to lie down here," said Truth: "the water's fine." But nobody paid any attention. Whereupon Truth, disgusted, applied a short and ugly word to itself and kicked the bucket.—Chicago Tribune.

ATTORNEY FINED.

Young Ansonia Lawyer Pays \$300 for Illegal Voting.

Franklin W. Cohen, a young Ansonia attorney, in the criminal superior court at New Haven, Wednesday, pleaded guilty to having voted illegally at the presidential election last year and was fined \$300 and costs by Judge Reed under a formal charge of false representation before the board of registration of voters of Ansonia, and of voting on November 3, 1908, although not qualified to do so.

Cohen, at the time he registered to vote, on October 23, 1908, was less than twenty-one years old, but represented himself as of age. His father cheerfully paid the fine.

It is possible that if anyone should make a complaint of Cohen's fine, for illegal voting to the board of registration of the New Haven Bar association, the affair might end in Cohen being debarred from the practice of law.

SACHETS.

Sachets are given as presents so that the girl who possesses more of the virtue of generosity than money may make many presents if she has a large number of fresh-looking silk pieces at hand.

Such little bags are of all sizes, as they are used to drop among the handkerchiefs, the neckwear, the gloves and the lingerie.

They are mounted over little fine white linen socks which hold the powder and their ends may be fringed and tied together with baby ribbon, or they may be faced or shirred into a sort of rose effect.

Sachets are especially acceptable these days when only vague suggestions of perfume are permissible.

Larger pads are for bureau or dresser drawers.

Get silkateen or thin flowered material and purchase a pound of dried heliotrope flowers at any drugstore.

Any fragrant flowers that give forth a pleasant and lasting odor, can be used. Crush the flowers and put a handful or two into the bags. These are to be placed in the bottom of the drawer. When the articles are taken out at any future time, the odor will be noticeable, yet not strong like the ordinary perfume.

The Wrights in Retirement.

The decision of the Wright brothers to make no more exhibition flights does not mean that the Ohioans are to devote their time hereafter merely to the exploitation of the aeroplanes, give their attention solely to raking in the dollars of those who yearn to fly in their own machines.

In an article written by one of the brothers a few years ago he said that the two wished to be known not as inventors, but as scientists. If saw more distinction between the words than strict analysis could prove, but he doubtless meant that money making was not the final aim and ambition. Now that the brothers have retired triumphantly from the sight of awe struck multitudes, they can play to their heart's content the part of the scientist to whom the game is everything, the rewards but incidental.—Toledo Blade.

Water Not Mentioned.

The Burton waterways commission is enjoying itself where the Wurzburgers flow. And in England every man on it was an "ale fellow well met."—Brooklyn Eagle.

Not Even a Core for Peary.

With Matt Henson lecturing no doubt Commander Peary will have cause to realize that no man is a hero to his valet.—Detroit Free Press.

Can't Divide Joseph.

They are talking of dividing Texas, but Joe Bailey will continue to run all over it.—Atlanta Constitution.

Supply Large.

Mr. J. P. Morgan is buying original manuscripts of poetry. His mail from India will now come by the carload.—Chicago Post.

DRUG LICENSES.

Local Men Getting in Touch With New Excise Law.

The Connecticut Pharmacy association is endeavoring to make the drug-gists familiar with the new excise laws. Under the new laws selling in drug stores will be reduced to a minimum.

Section 50 of chapter 5 of the new law says: "Every pharmacist, who shall sell spirituous and intoxicating liquors to be drunk on the premises shall, upon conviction, forfeit both his druggist license for the sale of spirituous and intoxicating liquors, and also his pharmacy license, and be subject to penalties of section 2,712 of the general statutes." Consequently the druggist will have to be mighty careful to whom he now sells a "nip."

It is in connection with section 43 concerning certificates that Attorney Lynch has been working. It reads as follows:

"All applicants for license to sell spirituous and intoxicating liquors under any form of a druggist's license shall, before making application for such license to sell such liquors, secure from the commission of pharmacy a certificate in good standing and is also a proper person to sell liquors, under all forms of a druggist's license, not to be drunk on the premises. Such commission shall have power to revoke or suspend any license issued by it to a pharmacist, on his conviction of the violation of any law relative to the sale of intoxicating liquors, and it may refuse to grant to any pharmacist of fitness to sell spirituous or intoxicating liquors, for the store or location where such conviction occurred, for the period of one year after such conviction."

The state society's attorney acquaints himself with the druggist, sees his license, and if everything is found satisfactory, gives him the certificate, without which the county commissioners will not issue license.

Why the Birds Sing.

It has remained for Mrs. Ralph H. Van Deman of Washington to explain the fascination of aeroplaning. This is quite different from taking a trip in a balloon, which latter diversion has been relegated to the back number class of amusements. The thing to do now is to navigate the air in a heavier-than-air machine, and it is the testimony of those who have had the experience that, once tried, there is an irresistible attraction in the hazardous game. Mrs. Van Deman yesterday took honors as the first woman in America to make a flight. "Now I know why the birds sing," she exclaimed as she landed safely in the government aerodrome at College Park, Md., after four minutes in the air. "I know of no sensation to compare with it."—Pittsburg Gazette-Times.

She Was Wise.

For unbridled tact children often are difficult to beat, as was exemplified in a West Philadelphia home recently. Little Dorothy stood at the doorway of her father's den, one hand on the knob.

"Papa, dear," she lisped, "do you know what I'm going to buy you this year for a Christmas present?" "No, darling," said the father, looking up from his papers. "What?" "Please, papa," answered the little maid, "a pretty new china thavung mug with gold flower on it."

"But," said the fond parent, "papa has a nice one like that already, dear, a very handsome one."

"Oh, no, he hasn't," replied the child. "I've just dropped it."—Philadelphia Times.

One Not Mentioned.

Among the names of those not mentioned as a successor to Justice Peckham is that of Kenesaw Mountain Landis.—Louisville Times.

Perfectly Harmless.

No news editor ever fears to use one of Mr. Rockefeller's Talks to Young Men. They are perfectly harmless.—Chicago Tribune.

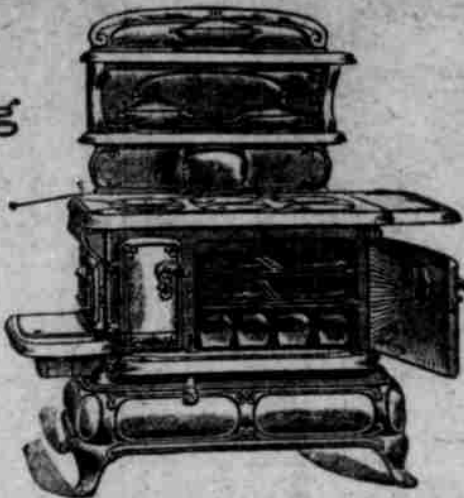

There are now over 33,000 men employed in government dockyards in England.

Bake In The Sure Oven

"Makes Cooking Easy"

C. O. Murphy, Norwich

The Hetch-Hetchy Valley.

The weakness of reformers lies not infrequently in singleness of aim. We have taken no part in the Hetch-Hetchy Valley controversy heretofore, because we believed the experts in scenery in this particular case were on the wrong track. Now, however, that the matter is about to be pressed to a settlement, the outline facts should be borne in mind. San Francisco needs the water from this valley. The company which supplies her, being but a human company, has been busy in Washington saving scenery. The good but innocent scenic reformers have also helped. We have secured the opinion of a number of the best investigators familiar with the valley and with San Francisco situation, and have found them strongly in agreement with Mr. Roosevelt, Mr. Pinchot and Mr. Garfield, that the privilege of using this water should be granted. No harm will be done to the Yosemite, and San Francisco will be freed from an inadequacy in her water supply and from the control of a monopoly.—Editorial in Collier's for October 15.

Wood of Course.

A Providence newspaper complains that Rhode Island hasn't enough capital to build a woodshed. But why does Rhode Island want a woodshed?—Albany Journal.

Bitter Reflection.

If it were not that the last act is unimportant, somebody might object to the ladies putting on their Gaiety-borough hats at the beginning of it.—Charleston News and Courier.

Hot Water.

The threatened increase by France of duties on certain American goods from 22 per cent. to 212 suggests the boiling point.—Boston Transcript.

Penalty of Intruding.

And now they are saying there is a Bryan fight on Harmon in Ohio. What do you know about that?—Houston Post.

Deaths from hydrophobia in Europe average only a small fraction over one a year.

How America Wears Its Toga.

President Benjamin Ide Wheeler's statement in Germany that America wore its government more like a toga than a coat must have meant that it sacrificed service to dignity, though there have been times when it could hardly be changed with showing an excess of the latter.

Up to Peary.

One thing is certain: Lieutenant Shackleton did not reach the South pole, that is, if he may be believed.—Milwaukee Sentinel.

No Trade Dollars for Bill.

President Taft and President Diaz did about everything except swap silver dollars.—Atlanta Journal.

A Native Tribute to Haskell.

The papers use elegant language in Oklahoma. We quote from the Oklahoma City Times:

"Governor Haskell has been lambasted from soda to hock, from string-beans to hell-split, and we'll swear it begins to look like he was about the cleanest of the bunch."

The governor must be pleased with such praise from an opposition paper.—Charleston News and Courier.

Love's Educational Aspects.

To love a good woman is a liberal education. To love a lady of fashion is a commercial education.—Leslie's Weekly.

Black beeswax comes from Burma.

Ranges and Stoves

If you want a good Range at a reasonable price — a Range that will bake well and save 1-3 the fuel you have been in the habit of using with that old one — then you should come and see us. We have just such a Range. Prices from \$18.00 up. Set up free gratis.

About Furniture

All we have to say is that we carry as fine a stock of Furniture as you will find in this city.

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless: *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food: *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seeley, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
